CASE STUDY

ABOUT THE CLIENT

Our client houses a combination of high-quality, innovative yet affordable children's activities and services all in one place and all under one roof. Not only can you book classes, sessions, therapies, private parties and holiday activities, you can stop for a coffee, meet with friends, have a family breakfast, lunch or dinner, or just a slice of home-made cake in the play-cafe. You could get your children's haircut, shop for toys and gifts, make arts and crafts, and order a bespoke birthday cake and party supplies, by visiting many retail services.

ABOUT THE CLAIM

The client spent a large amount converting a warehouse type building into an indoor play centre for children. The claim was for leasehold expenditure between accounting periods 2016 and 2018. Their accountant did a good job and already claimed a large amount of Capital Allowances, and once added disciplines applied, an even larger number was recovered, meaning the client had retrieved back most of their expenditure.

CASE RESULTS

YEAR OF EXPENDITURE
2016 - 2018
